# WIRELESS FOR HOSPITALITY

**“Providing an exceptional experience for our guests is a top priority, so for us, there was only one option — deploy a cutting-edge wireless system that can adapt to the ever-changing spectrum of wireless technologies and applications.”**

**Paul Cadena, Director of Technical Services  
Fontainebleau Las Vegas**

When Fontainebleau began planning their spectacular new Las Vegas resort, TriPower was asked to design the reliable wireless coverage that would unify the buildings and businesses that create this world-class destination. Leveraging the flexibility of the MobileAccess Universal Wireless Network, TriPower is delivering a comprehensive solution that supports any combination of wireless operators, ensures reliable coverage for public safety radio, and simultaneously serves as a backbone for Fontainebleau’s enterprise and Wi-Fi communications.

Drawing from extensive experience in deploying other large Las Vegas properties, the team provides Fontainebleau Resorts with the Wireless Master Planning™ and design expertise to ensure reliable coverage and capacity with a Wire-It-Once™ infrastructure to power all current and future wireless services and applications throughout the property.

#### **Wireless System Elements:**

Multi-Service, Multi-Carrier System  
Fiber-Based DAS  
Nearly 800 Broadband Antennas  
Over 600 integrated WiFi Access Points  
Integrated Vo-WiFi  
Cellular and PCS with AWS  
Public Safety Coverage Compliance

#### **TriPower Scope of Work:**

Wireless Master Planning™  
System Design  
System Installation & Carrier Integration  
Wireless Asset Management™
